- Vocal Backings
- Rehearsal CDs

LET'S FACE IT. Your next show is the most important show you'll do. You'll give it the best of everything you have: the best directors, the best talent, the best technicians, etc. And if you had your way, you'd want to have the best music possible; you'd get a full orchestra for every show. Now Aztec ShowTrax, a premiere live-instrument track production and rental company, gives you the ability to do just that very thing!

<http://www.aztecshowtrax.com>

ShowTrax uses professional musicians and full-scale recording studios to build fully orchestrated, live instrument tracks, giving you a Broadway-quality sound for all of your productions. We use only first-call studio musicians and the highest quality engineers to ensure your score is everything you'd want it to be and in your hands in only a few short weeks. The best part is that we provide them at a fraction of the cost you would incur were you to produce a similar track on your own. Our focus is to improve the success of your theater without increasing your costs.

CATALOG TRACKS

We understand that running a successful theater is about prioritizing your resources. With Aztec's gold, silver, and bronze level catalog tracks, your organization now has several

options to enhance each production without hurting your bottom line. We're committed to doing whatever we can to improve the success of your most important productions.

VALUE-ADDED SERVICE

In addition to our custom-built and catalog tracks, we are proud to offer the following additional services that many clients have found invaluable for increasing the quality of their productions. We provide custom edits, key changes, pre-recorded sweetening vocals, rehearsal CDs--anything and everything possible to meet your show's specific musical needs. Imagine providing your actors with part-specific rehearsal CDs on the first day of rehearsals, set to the score they'll be performing! And if you want to have the option of live musicians to augment our

fully-orchestrated track, let us provide a click track as part of your package. Our goal is to provide you with every musical and technical resource available to tailor your track specifically to your needs.

GENERATE REVENUE

Musicals fill the house like nothing else--we realize that. We also realize they are the most costly shows to produce, but they generate the most income for your theater. Normally, you're able to recycle the expensive sets, costumes, and props, but your instrumental tracks end up sitting on a shelf. Aztec ShowTrax provides an avenue for these tracks to continue generating income for your organization. Our unique track sharing program allows theaters around the nation to include their pre-existing tracks in the Aztec catalog and share in the revenue generated from the re-use of their

materials. By taking advantage of our nationwide marketing and networking campaigns, your tracks can continue to earn money after your show has closed and you can help another school or theater increase the quality of their production.

HOW TO GET STARTED

Contact Aztec ShowTrax today by filling out our online quote form or calling us directly. We'll be happy to provide more information about our products and services, answer any questions, discuss pricing, and even add your upcoming shows to our production schedule.
